DISASSEMBLE

NEUTRAL

WORK TABLE

Work tables are designed to match perfectly with the rest of **◆ gwt** stainless steel equipment, whether are neutral, hot or cold elements. **◆ gwt** always ensures that dimensions across its wide range of products are the same, from work table height to backsplash size, including undershelf distance to the floor. Last but not least, **◆ gwt** work tables are designed to get the most out of the professional kitchens, thanks to its flexibility in products and sizes which adapt to any kind of needs and spaces.

Strenght and durability

◆ gwt standard series work tables offer large, spacious work surfaces, renowned by their durability and strength that truly make them one of the strongest and toughest products of this kind in the market. To ensure product quality, all work tables are tested before delivery.

Features and benefits

Tables with undershelf

Made of AISI 304 stainless steel, brushed finish

Table frame ensures excellent stability when working on its 40 [mm] height work-top front view

Solid and robust structure obtained after installation

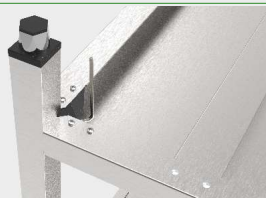

Stainless steel legs, with adjustable working height

Reduced transportation costs

Solid and sturdy structure

Tables can be stored using only 135 [mm] of height, resulting in storage, shipping and handling savings

Quick and easy to install, due to its modular assembly system

Other available options include over shelves in neutral

Fast and easy to assemble

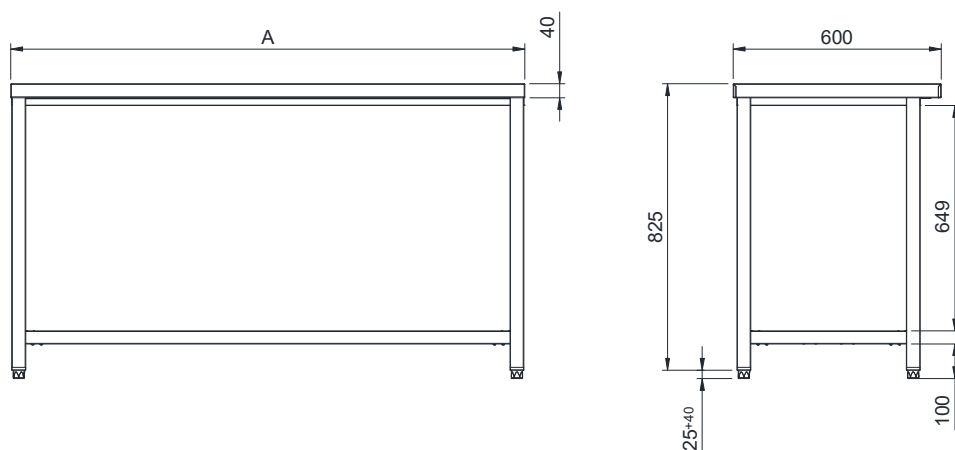

For other available options in different sizes please contact GWT
